■ She truly gorgeous, i must say

■ HMS Warspite was a Queen Elizabeth-class battleship built for the Royal Navy during the early 1910s.

■ She may be old, but damn that thigh looks so smooth!

■ Warspite-sama drinking her Royal Milk Tea

■ Didn't i told you that her ass is also out of this world?
Rubbing in between them makes you feel that you can plunge it deeper
and whoever pulls it out will be the next King Arthur!
